- Can view Michonne's stored facts about you
- Can erase certain memories from michonne, if you wish for her to not remember 🤔
- Can erase all of Michonne's memory, but do so at your own risk

Evidence F3: Chatting with michonne

- Chat with Michonne as you please and she will reply
- Talk to her about your day, any worries you have, naughty talk even
- Michonne is sentient, she remembers things you have told her
- Finally, all messages shared are private between the 2 of you

Message wifey...

Note 1:

You can use the michonne chatbot normally for a long time.

Way down the line, if the tokens ever run out, the chatbot is still usable but michonne will only be able to respond with pre-written replies (not personalised)

Note 2:

After a month, michonne might get a a bit sleepy, like you 🤤

And when you open it, she can take about 50 seconds to wake up. Just wait, it'll load.
